

Remarks

Reconsideration and allowance of the instant application are respectfully requested in view of the following remarks.

Attached hereto please find the Declaration of Dr. Quan Huang, an inventor of the instant application.

Dr. Huang sets forth in his declaration that the Examiner's analysis of the Tabaksblat et al reference is mistaken and can not support the instant rejection of the claims. In short, Dr. Huang points out that the concentration of the surfactant on the polyolefin particles in Example 1 is 0.056%, well below the claimed range. Moreover, that in Comparative Example A, where the concentration is in the claimed range, that no particles are formed. Therefore, Tabaksblat et al. does not anticipate or obviate the claimed invention. Accordingly, the instant claims must be allowed over Tabaksblat et al.

Kindly enter the attached declaration, consider it, and allow the instant application.

Respectfully submitted,

---
